

The Beauty of Qi

Non-invasive Facial Beauty, Body Beauty, Body Contouring and Anti-aging

A lifestyle with visible and tangible results in just one hour, without any harmful side effects.

In just one hour, you can personally experience a lifestyle free from any side effects. Smart Acupuncture is dedicated to transforming cellular function, offering effective solutions for various chronic diseases, and achieving goals related to facial beauty, body beauty, body contouring, and anti-aging. While even the most skilled beautician cannot enhance the beauty of the deceased with makeup, they can bring out the beauty in a patient. This is because one possesses qi (life energy) while the other does not. One's existence is sustained by the essence of qi, and life itself depends on this vital energy. Replenishing qi is synonymous with replenishing life energy. Do you make it a daily practice to replenish your qi?

How does Life Wave replenish qi every day?

Resonating with body cells through the smart acupuncture device sound wave generator.

1. Facial Beauty:

Use two units daily, both stored in one bag. During the day, place them on the floor and lay your feet flat on these two units for one hour. Set the energy intensity to the seventh level and position the two units vertically. Each unit features four circular sound wave generators. For men, the feet can reach three generators located at the heel, the center of the foot, and the toes. For women, the feet can reach only two generators, but they can be placed both up and down to ensure resonance with every part of the foot.

At night, place the devices beside the bed, rest your feet and legs on them for resonance. Adjust the duration to 180 minutes, and set the energy level according to individual preferences. In the morning upon waking up, turn on the devices for 30 to 60 minutes of resonance. With consistent use, you'll witness daily effects, maintaining a youthful state with long-term use.

2. Facial Beauty, Body Beauty:

Use four units daily, placing two in each bag. Throughout the day, position two units on the floor and the other two on a chair, all kept vertically. The energy intensity of the two units on the floor can be set to the eighth level, while the two units on the chair can be set to the seventh level. Follow the same foot placement as mentioned above, and when sitting, cover all parts from hips to thighs on the first through fourth generators. Alternatively, the two units on the floor can be placed on your back, allowing you to lean and resonate. In essence, it can be utilized for multiple hours during the day.

At night, place it on the bed to resonate with the feet and legs, adjusting the energy level according to individual needs. After approximately one year of consistent use, various chronic diseases will transition into a sub-healthy state, and with an additional half a year of use, the sub-healthy state will progress into a healthy state.

3. Facial Beauty, Body Beauty, Body Contouring and Anti-aging:

Become a member of our Anti-Aging program, featuring a holistic approach crafted by experts. The program includes:

- 1. Aging Analysis:** Identifying the root causes of facial, internal organ, and bone aging.
- 2. Expert Solutions:** Formulating personalized solutions with a team of experts.
- 3. Qi Replenishment through Singing and Tranquilizing:** Learning the art of singing and tranquilizing for qi replenishment.
- 4. Online Counseling:** Weekly appointments with experts for video counseling.
- 5. Life Wave Method:** Daily use of five units, two in each bag, with a specialized unit for abdominal use.

Enhance your daily routine by placing your feet on the devices at home or in the office. This massage and acupoint resonance help maintain microcirculation, boost immunity, and address various health concerns. Additionally, sitting on the devices is beneficial for reproductive health and addressing sciatic nerve compression, a common issue for many.

Lay all five devices flat on the bed, allowing you to lie down and regulate the entire yang meridian, including the governor channel and bladder meridians. Yang deficiency encompasses most aging issues in women.

Use two units before bed to tone the entire yang meridian and enjoy uninterrupted meridian flow throughout the day. Embrace the mission of experiencing "the beauty of qi" every day!

"The Beauty of Qi" is our pathway to a lifelong freedom from disease

Revealing an internal state of being "disease-free" manifesting in both facial and bodily expressions.

Whether contending with chronic ailments or intricate medical conditions, Smart Acupuncture provides a pathway to revitalization, aspiring to achieve the coveted outcome of "age-freezing." I'm thrilled to share the daily journey of attaining "qi" of a Taiyi inheritor, who, in his sixties, remains free from diseases without resorting to medication, injections, or vaccinations, even after nearly a decade in the U.S. He exemplifies the delight of sustaining youthful vigor. While traditional acupuncture emphasizes obtaining "qi," daily sessions are unfeasible. To address this, we've introduced a patented Smart "Qi" Acupuncture innovation. With a simple switch activation, whether on an airplane, high-speed train, during work, or at rest, you can effortlessly tap into the benefits of "qi." Our mission is to enable humanity to embrace the experience of "The Beauty of Qi" every day!
